

Quality Policy for Solar Solutions Limited

We are committed to offering a high level of service ensuring 100% customer satisfaction through the sale and installation of quality products that are approved by international certification bodies (such as TUV). Our service will be based on timely response and delivery and 'right first time' installations to prospective and existing customers. All employees at Solar Solutions Limited commit to optimizing their work to achieve this level of excellence. We will confirm the achievement of such objectives by collecting and measuring customer feedback.

To implement this policy we have adopted a quality management system based on the requirements of ISO9001: 2008. We commit ourselves to continually improve the quality management system and its effectiveness, so that the client satisfaction that we are promising is achieved constantly and repeatedly.
